INTERNATIONAL PAPER SIZES

The International Sizes are founded on the metric system and the basic paper sheet size (A0) is one square metre in area, hence the weight of one sheet of paper equates to grammes per square metre — the measurement used to differentiate between grades of paper, e.g. 70g/m² and 80g/m².

The basis of International Sizes is a sheet which however many times it is folded in halves, the sub-division always have their sides in the same ratio, which facilitates enlargement or reduction of printed matter, diagrams and drawings.

There are three derivatives of the A sizes:

A sizes untrimmed	RA sizes for printing & cutting to A sizes	SRA for bled printing where extra trim is required to produce A sizes
mm	mm	mm
A0 = 841 x 1189	RA0 = 860 x 1220	SRA0 = 900 x 1280
A1 = 594 x 841	RA1 = 610 x 860	SRA1 = 640 x 900
A2 = 420 x 594	RA2 = 430 x 610	SRA2 = 450 x 640
A3 = 297 x 420	RA3 = 305 x 430	SRA3 = 320 x 450
A4 = 210 x 297	RA4 = 215 x 305	SRA4 = 225 x 320
A5 = 148 x 210		
A6 = 105 x 148		
A7 = 74 x 105		

INTERNATIONAL ENVELOPE SIZES

The International Envelope size range has been developed from the A series of paper sizes allowing extra space to insert an A size sheet into an envelope — the range of envelope sizes is designated the 'C' sizes.

SIZE C3 to take A3 297 x 420mm unfolded.
Uses: *Computer printout, Brochures, Calendars, Showcards.*

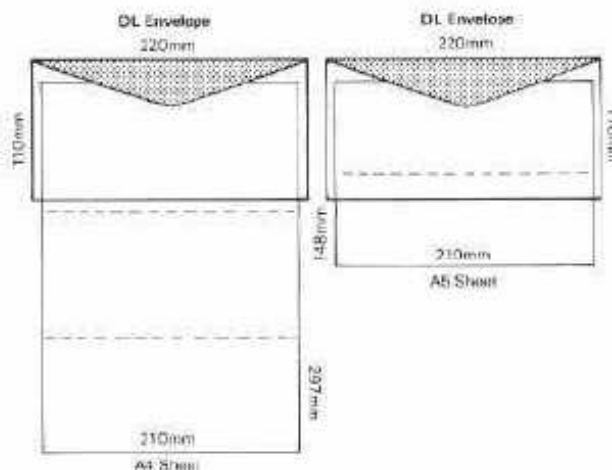

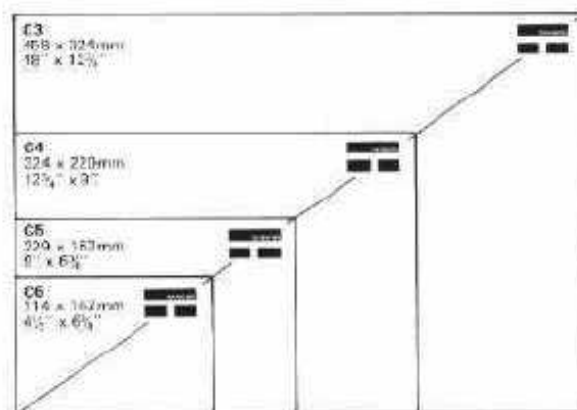

SIZE C4 to take A4 210 x 297mm unfolded.
A3 297 x 420mm folded once.
Uses: *Brochures, Booklets and General printed matter, A4 size flat.*

SIZE C5 to take A4 210 x 297mm folded once.
A5 148 x 210mm unfolded.
Uses: *Small brochures, and Letterheads A4 folded in half.*

SIZE C6 to take A4 210 x 297mm folded twice.
A5 148 x 210mm folded once.
Uses: *General correspondence, Invoices, etc.*

DL Size 110 x 220mm ($4\frac{3}{8}$ x $8\frac{5}{8}$ "') is a development of the 'C' sizes to allow A4 210 x 297mm sheet to be folded twice or A5 148 x 210mm folded once as diagram illustrates.

Uses: *For DL Envelope — all General correspondence, Invoices, etc.*

GENERAL CONDITIONS

Terms of Trading

Our terms of trading are strictly Nett one month for account customers.

For new customers seeking to open a trading account we require two trade and a bankers reference prior to consideration of the request. We reserve the right to withhold supplies when payments are overdue.

Value Added Tax

The prices quoted in this list are subject to V.A.T. at current rate and based on the net goods value of the invoice.

Small Orders

For goods delivered we reserve the right to decline orders with a total value, excluding V.A.T., of less than £50.00.

Customers are reminded of our wide range of paper and board stocks which can be aggregated with envelope and pocket orders to increase the value of your order. Minimum quantity for an item is one box.

Quantity Reduction

Any stock item for envelopes and pockets can be aggregated in one order to qualify for quantity reductions.

For split deliveries and goods sent to more than one address the reduction shall be determined by the quantity sent to each address.

Printed envelopes ordered at the same time as standard plain envelopes are not eligible for combined quantity reduction. Assorted orders for printed envelopes ordered at one time and for delivery to one address shall determine the reduction, but printing charges shall be determined by the quantities ordered of a size and print.

Petavelop and Petamaila are excluded from being aggregated with envelopes to secure quantity reduction. They can however be added together if the combined quantities of Petavelop or Petamaila qualify for an appropriate allowance.

Return of Goods

We shall only accept the return of goods by prior agreement and the goods must be in perfect condition. A handling charge of 15% (subject to a minimum charge of £10.00) will be made on all goods returned.

Prices

All quotations and orders are accepted subject to raw materials being available and on the basis of price ruling at time of despatch.

Special Manufacture Envelopes and Pockets.

When goods are specially made to customers requirements, including printing, exact ordered quantities are not guaranteed. If this should cause any problems to customers we suggest discussion with our Sales Office when placing the order in an attempt to resolve any difficulties.

Self Sealing Envelopes & Pockets

The nature of the latex adhesive used in the production of self-sealing envelopes and pockets is such that it is susceptible to contamination and premature ageing if the goods are not stored in dry and dust-free conditions and away from heat e.g. stoves, radiators, fan heaters and the like. We strongly recommend customers to rotate stock, using the oldest stock first, and to assist we date code the box labels.

Carriage

For all orders over £50.00 in value delivery will be made on either our own transport or our nominated carrier. If instructions are made to send by other means e.g. Passenger Train, then this will be at cost to the customer.

Delivery Discrepancies

Discrepancies in delivery must be notified to us in writing within seven days of delivery.

Conditions of Sale

All orders are accepted in accordance with our Conditions of Sale, copies of which are available on request to our Sales Office.

For a bespoke or personalized envelope and pocket,
consider a **TANNERS** special — we manufacture
specialities on the stock theme.

Any stock size of envelope or pocket in your chosen
paper from airmail envelope grade to cartridge paper
— White, Coloured or Manilla.

Printing — we can print on face, back or flap of
envelope and pocket, along with printing the inside
of your envelope to improve opacity.

If you need a special window size and positioning we
can accommodate such requests for relatively
small quantities.

A special size of envelope for a mechanised mailing
application, then we have available a wide range of
cutters to fulfil most needs.

When considering a **SPECIAL**, please ask our Sales
Office for a quotation.

OSOTUFF Manilla Pockets —

Strong basket-weave patterned pocket with double bar gumming.
— See Page 9 & 10.

Transparent PLASTIC POCKETS

mailopacks

**Tanners now stock and distribute Mailopacks –
clear plastic, self-sealing pockets for professional mailings.**

The advantages of Mailopacks are clear too!

- Manufactured in 150 gauge polythene, they are lightweight but extremely durable – ideal for direct mailings where minimal weight with maximum protection is required and also have the advantage of showing the addressee the contents in a most acceptable manner.
- Stock sizes are overprinted with the line 'If undelivered, please return to sender'. A plain white panel at the top of the Mailopack accepts self-adhesive labels, Post Office franking and hand written endorsements.
- Mailopacks can be supplied printed in two, three or four colours to accommodate company logos, house styles or individual design requirements.
- Resealable flaps are clearly an advantage on the occasions when enclosures get overlooked and for 'printed paper' overseas mailings – the flaps open and reseal neatly, leaving no tell-tale signs and reducing wastage.
- Air holes are a safety precaution but also allow excess air to escape, making a slimline package.
- For ease of use a removable peel off strip protects the self-seal adhesive flap.
- Mailopacks meet all Post Office statutory requirements.

Mailopacks stock availability is as follows:

Code	Size	Boxed	Smalls	5,000	10,000	25,000	50,000
631	305x225mm (Approx C4)	1,000's	£26.96	25.23	23.51	22.81	21.09
632	219x160mm (Approx C4)	1,000's	£22.00	20.90	20.15	19.40	18.60

As the advantages are many, so are the applications:

All Commercial Organisations	Company Brochures and Price Lists
Tour Operators/Travel Companies	Holiday Brochures
Direct Mail Houses	Catalogues
Institutes and Professional Organisations	Publications/Journals
Publishers	Magazines/Periodicals
Government and Local Authorities	Information Bulletins
Door-to-door Distributors	Mail Order Offers
Establishments	Information Bulletins
Airlines	Timetables

**For further information or a quotation for your bespoke requirements on Mailopacks
please ring our sales office**

Mailopacks is the trade name of Intermail Ltd.

Computer Print-outs
Data Sheets
Diaries
Journals
Magazines

Manuscripts
Maps
Patterns
Photographs
Point of Sale
Price Lists
Print
Proofs
Records
Samples
Stationery
Stencils

Petamaila

Petavelop & Petamaila are the answer for the mailing and protection of bulky or fragile items for which paper envelopes and pockets are unsuitable.

Petavelop & Petamaila offer an advantage over Board Backed pockets in expanding to suit the contents, and Petamailas are gusseted to accommodate bulkier contents like Books, Cassettes and Video Tapes.

Petavelop & Petamaila have a reusable locking system which allows for multi-use and meets overseas mailing requirements for reduced Printed Rates as contents can be checked by customs authorities.

Petavelop & Petamaila are made from a strong board and their construction allows the vulnerable corners to cushion any knocks or bad handling, thereby protecting the contents.

Petapak Stationery Boxes available to special order for storing and protecting A4, $\frac{1}{2}$ A4, and A5 Plain or Printed cut size papers.

Petavelop is manufactured in 70 different sizes

from $4\frac{1}{4} \times 7\frac{1}{4}$ " — 121 x 197mm,
to $24\frac{1}{2} \times 17\frac{1}{2}$ " — 622 x 444mm.

Petamaila is manufactured in 15 different sizes.

from $4 \times 5\frac{1}{2}$ " — 101 x 140mm,
to $12 \times 17\frac{1}{8} \times 1\frac{3}{4}$ " — 305 x 435 x 45mm.

Petavelop, Petamaila & Petapak are the trade names of the manufacturers *M. Petrushkin Ltd.*

All sizes of **Petavelop** & **Petamaila** can be aggregated in one order/delivery to qualify for quantity reduction.

TANNERS STOCK THE INDESTRUCTIBLE

SURVIVOR[®]

The toughest envelopes

tear resistant · water resistant · rot resistant · lightweight · vapour permeable

Survivor Tyvek envelopes are ten times stronger than paper envelopes and yet weigh half as much. They are water and chemical resistant, rot-proof, non-abrasive and lint-free. This tough lightweight range provides maximum protection against tearing, puncture or bursting and is widely used by the computer industry, courier services, government departments and the banking, legal, accountancy and insurance professions. Survivor Tyvek envelopes are available in all standard sizes and more. Choose from the range of different shapes and sizes, ideal for all normal, and specialised, commercial use.

Remember - you don't mail the envelope, you mail the contents!
